

Green Building Council Opens for Membership!

GBCSA

MEMBER

ORGANISATION

The Green Building Council of SA is pleased to announce that we are now officially open for membership! The Membership Launch took place at the SAPOA Convention at the CTICC from 28-30 May, which served as the perfect platform from which to launch this important industry body.

The GBCSA took a double stand at the exhibition, constructed mainly of recycled boards from Xanita. The “new kid on the block” generated much interest, and the entire Green Building Council team was on hand to field questions from people wanting to know more and get involved.

Throughout the 2-day convention program, speakers raised the importance of addressing carbon emissions and global warming, and the urgent need for the property industry to play a key role by embracing green building.

Bruce Kerswill - Executive Chairman of the Council and driving force behind its establishment in South Africa – also presented an update of Green Building Council progress at a well attended closing session

on the last day of the conference.

For more information on the benefits of membership, categories and fees or how to join please go to
